### Metropolitan Defined Contributions Plans

Metropolitan employees may participate in both 457(b) and 401(k) deferred compensation plans. Metropolitan has offered the 457(b) plan since February 1977, and the 401(k) plan since May 1985. Pursuant to the Administrative Code, the General Manager is designated to carry out the powers, duties, and responsibilities of the Plan Administrator. The General Manager has delegated authority to the Assistant General Manager/Chief Financial Officer (CFO) to act as the Plan Administrator. The Assistant General Manager/Chief Administrative Officer (CAO), CFO, and Treasury & Debt Manager served as Plan Trustees until the Deferred Compensation Investment Committee (DCIC) was adopted by the Board on February 14, 2024, to replace the Deferred Compensation Advisory Committee (DCAC) with DCIC members becoming co-fiduciaries.

### **Major Actions and Discussions of the Plan Administrator and Investment Committee**

- After Tax ROTHs were implemented for both 401(k) and 457(b) plans on July 15, 2024.
- The Board approved the new committee structure and bylaws on February 13, 2024.
- The Committee's name has been changed from the DCAC to the DCIC.
- The DCIC Investment Policy Statement was updated and signed, reflecting cleanup changes, and also to reflect the new name of the DCAC to Deferred Compensation Investment Committee.
- The Deferred Compensation Plans defaulted to the more generous Required Minimum Distribution uniform lifetime table.
- The Plans added the optional consolidation feature allowing retirees to combine their 401(k) and 457(b) plan assets into one account.
- Float Earnings were adopted on **December 5, 2024**, to allow the interest earned by Empower on holding accounts to be reimbursed to MWD plans after costs associated with doing the banking and the transactions are paid to increase assets for plan administration.
- The committee voted on **December 5, 2024**, to approve the renewal of the Financial Finesse contract, effective 7/1/2025 for a 5-year term.
- MWD received a 2024 Marcom Gold Award for the Roth Rollout Campaign. Marcom honors excellence in marketing and communication while recognizing the creativity, hard work, and generosity of industry professionals.

### **CalPERS Defined Benefit Pension Plan**

Metropolitan originally contracted with CalPERS as a Local Miscellaneous agency on January 1, 1945, to administer its pension plan. The plan provides employees with a defined benefit upon retirement based on years of service, age, and salary. Effective July 1, 1971, Metropolitan adopted the 2% age 60 benefit formula. The formula was amended on December 28, 1997, to provide 2% at age 55. Effective January 1, 2012 contract was amended to implement a 5-year vesting schedule for represented members. Represented classic members pay their full employee contribution for their first 5 years of employment before receiving employer-paid member contributions (EPMC), and unrepresented classic members continue to receive EPMC from date of hire. Effective January 1, 2013, Pension Reform changes required that all "new" members to the CalPERS system be enrolled in the 2% at age 62 formula.

The CalPERS employer rate is set annually based on an actuarial valuation performed by a CalPERS actuary. Many factors are used in determining the employer rate including the number of employees, age of employees, payroll, and investment return. Each actuarial valuation reflects all prior differences between actual and assumed experience and adjusts the contribution rates as needed. This valuation is based on an investment return assumption of 6.8 percent, adopted by the Board in November 2021.

Effective July 1, 2017, the unfunded accrued liability (UAL) is now reported as a dollar amount instead of added to the employer rate and is determined by looking at the market value of assets of the plan and comparing it with the accrued liability of that plan\*\*. To the extent that the assets are different from the liability, the plan will also be assessed as an unfunded liability payment. The purpose of the unfunded liability payment is to stabilize the assets and liabilities over time. The total employer contribution is the sum of the normal cost rate applied to an employer's reported payroll plus the UAL payment. These two components are the required contribution amount that employers pay CalPERS to fund their employees' pension benefits.

2025/26	10.68%	\$72,329,773	
2026/27	10.4%	\$78,482,000 (projected)	

The EPMC rate for classic members remains at 7.49% for a total employer cost of \$10,898,226.42 for FY 2023/24, an increase of 2.8% from FY 2022/23.

### **Metropolitan's Pension Demographics**

The demographics below are as of June 30, 2022, and June 30, 2023:

<b><u>Active Members</u></b>	<b><u>June 30, 2022</u></b>	<b><u>June 30, 2023</u></b>
Count	1,809	1,813
Average Age	48.16	47.97
Average Age at Hire	35.27	35.44
Average Years of Service	13.26	12.84
Average Annual Pensionable Earnings	\$135,479	\$140,140

Average Annual Pension	\$60,625	\$63,655
Active to Retired Ratio	0.74	0.73

### **Public Employees' Pension Reform Act (PEPRA)**

As of January 1, 2013, the PEPRA mandates that all "new" PERS members be hired under the 2% at age 62 formula and requires that they pay the full employee cost. For the period of July 1, 2024, through June 30, 2025, the full employee cost is 8% percent. There are currently 1,004 employees enrolled in this new formula as of December 2024, which is an increase of 63 employees from 2023. The cost of EPMC has declined by an overall 19.3% since the implementation of the 5-year time-in-grade vesting schedule for classic members and the passage of PEPRA for new members.

### **Changes Since the Prior Year's Valuation**

The standard actuarial practice at CalPERS is to recognize mandated legislative benefit changes in the first annual valuation following the effective date of the legislation. For rate plans that are not in a risk pool (non-pooled), benefit changes by contract amendment are generally included in the first valuation that is prepared after the amendment becomes effective, even if the effective date of the amendment is after the valuation date.

### **Funding History**

Each year CalPERS actuaries calculate a funded ratio comparing the market value of assets to liabilities. The funded ratios change from year to year and are now based on the market value of assets. The market value of assets is calculated according to the present-day liquidation value of held assets and represents the short-term solvency of the plans. For the fiscal year ending 6/30/2024, CalPERS investment returns fund 55 percent of the retirement benefits. This directly impacts the employer contribution rate. The public employee pension is 45 percent funded by investment earnings and member contributions.
